3 The Medical Tourism Industry

5 Why you need Medical Tourism Insurance

6 Our Medical Tourism Insurance policy

9 How to buy it

Thousands of patients from around the world travel every year to countries like Mexico, Colombia or Argentina for medical purposes.

Because of the great quality service and a quicker response than in their home country, more and more patients from the U.S., Canada and around the world consider Medical Tourism their best option for medical care.

A very warm and friendly culture, beautiful cities and beaches on which to recuperate and the quality of medical services make Medical Tourism very attractive for patients and companies in the industry.

Puerto Vallarta, Tijuana, Cancun, Cartagena and Buenos Aires are some of the favorite cities for Medical Tourism purposes.

Why you need the Medical Tourism Insurance

While surgeons and hospitals take every precaution to protect your safety, the possibility of a complication exists for every surgery in any country, due to the natural conditions of a patient.

Because the medical or dental procedure is self-paid, **patients will also be required to cover additional expenses** should a complication occur during the procedure.

Our Medical Tourism Insurance Policy

Whether your medical/dental procedure is **cosmetic or not**, Our Medical Tourism Insurance provides you the peace of mind you deserve by covering the extra medical, hospital, and lodging expenses resulting from a medical complication that occurs during a covered treatment in Latin American.

A Medical Tourism Insurance Policy is as important as your Passport when it comes to security and added peace of mind.
